

## Recording Pesticide Use

### What exactly should I record?

- ✓ Pesticide and treated seed use
- ✓ Application times and re-entry periods
- ✓ Weather conditions at application time
- ✓ Health accidents and spills
- ✓ Application equipment maintenance and cleaning
- ✓ Training session and Personal Protective Equipment (PPE) renewals

Record all your farm activities. This will help you track health incidents, monitor your crop performance and facilitate future product selection for future learning.

### Tips for recording your farm activities:

- ✓ Keep a dedicated record notebook
- ✓ Use a dedicated calendar to indicate important farm activities
- ✓ Make it a habit! Carry your notebook with you during farm activities
