

During Application of Pesticides

When applying pesticides always:

1. Read the product label.
2. Wear the recommended personal protective equipment (PPE). 
3. Keep people and animals away from the treatment areas.
4. Spray in the same direction as the wind.
5. Pay attention to your environment. Don't spray over bodies of water!
6. Handle pressurized hoses with care and fix any leaks immediately.
7. Never use your mouth to unblock nozzles.

When using a boom sprayer, keep in mind:

Forward Speed

Nozzle Selection

Pressure

Spray Height
